## Week 6 - Telling the Time

By the end of Year 3 the children need to know how to do the following objectives. Many children find telling the time difficult. You may find learning to tell the time takes longer than one week. It could be continued over the summer holiday at your child's own pace.

1. Tell and write the time from an analogue and a digital clock using 12-hour and 24hour clocks.
2. Tell and write the time from an analogue clock using Roman numerals from I to XII.
3. Estimate and read time with increasing accuracy to the nearest minute
4. Record and compare time in terms of seconds, minutes and hours
5. Use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon and midnight
6. Know the number of seconds in a minute and the number of days in each month, year and leap year
7. Compare durations of events [for example to calculate the time taken by particular events or tasks]

The following documents are scaffolds to help children learn how to tell the time. We have also included some online resources and key information that may be useful.

## Week 6 - Telling the Time

1. Tell and write the time from an analogue and a digital clock using 12-hour and 24-hour clocks.

$$
\begin{array}{rlr}
0: 00=12: 00 \mathrm{AM} & 12: 00=12: 00 \mathrm{PM} \\
1: 00=1: 00 \mathrm{AM} & 13: 00=1: 00 \mathrm{PM} \\
2: 00=2: 00 \mathrm{AM} & 14: 00=2: 00 \mathrm{PM} \\
3: 00=3: 00 \mathrm{AM} & 15: 00=3: 00 \mathrm{PM} \\
4: 00=4: 00 \mathrm{AM} & 16: 00=4: 00 \mathrm{PM} \\
5: 00=5: 00 \mathrm{AM} & 17: 00=5: 00 \mathrm{PM} \\
6: 00=6: 00 \mathrm{AM} & 18: 00=6: 00 \mathrm{PM} \\
7: 00=7: 00 \mathrm{AM} & 19: 00=7: 00 \mathrm{PM} \\
8: 00=8: 00 \mathrm{AM} & 20: 00=8: 00 \mathrm{PM} \\
9: 00=9: 00 \mathrm{AM} & 21: 00=9: 00 \mathrm{PM} \\
10: 00=10: 00 \mathrm{AM} & 22: 00=10: 00 \mathrm{PM} \\
11: 00=11: 00 \mathrm{AM} & 23: 00=11: 00 \mathrm{PM}
\end{array}
$$

Converting from $\mathbf{1 2}$ hour time to $\mathbf{2 4}$ hour time

## Week 6 - Telling the Time

2. Tell and write the time from an analogue clock using Roman numerals from I to XII.

| $\mathrm{I}=\mathbf{1}$ |  |  | $\mathrm{V}=5$ | $\mathrm{X}=10$ |
| :---: | :---: | :---: | :---: | :---: |
| I | II | III | IV | V |
| 1 | 2 | 3 | 4 | 5 |
| VI | VII | VIII | IX | X |
| 6 | 7 | 8 | 9 | 10 |
| XI | XII | XIII | XIV | XV |
| 11 | 12 | 13 | 14 | 15 |
| XVI | XVII | XVIII | XIX | XX |
| 16 | 17 | 18 | 19 | 20 |

## Week 6 - Telling the Time

3. Estimate and read time with increasing accuracy to the nearest minute

## Week 6 - Telling the Time

4. Record and compare time in terms of seconds, minutes and hours

Time remaining

HOURS: MINUTES:SECONDS

## 12

Hours

Minutes

Seconds

## Week 6 - Telling the Time

5. Use vocabulary such as o'clock, a.m./p.m., morning, afternoon, noon, midnighta

## Week 6 - Telling the Time

6. Know the number of seconds in a minute and the number of days in each month, year and leap year

## Week 6 - Telling the Time

## 7. Compare durations of events

[for example to calculate the time taken by particular events or tasks]

Time how long it takes you to complete different activities!
You could...

- Do 20 star jumps
- Say the alphabet
- Write the long date
- Count to 100
- Throw and catch a ball 10 times,
- Do 30 skips
- Or any of your own choice!

You could even time how long it takes for other of your daily activities.
(for example, baking a cake, going on a bike ride, watching a film... )

Compare your times. Which took you the longest time? Which was the quickest activity?
